

# Let's Grow Music

introduces

## 1-Day Workshop

### Crash Course for Adults: *Help!* My Child is Taking Piano Lessons

This 2-hour Crash Course is designed especially for busy adults who want a music refresher course or a "quick fix" class. We offer two different class levels which cover the basics to help you understand the fundamental building blocks of music so you can answer your children's questions and watch their piano and musical talent grow!

#### Level I-Tempo I (2 hours)

This workshop introduces you to the world of written music and explains those lines, symbols, note heads and foreign looking words. By the end of this course, you will be able to look at a simple piece of music and understand what everything means.

- staff, note, pitches
- treble and bass clef
- grand staff & ledger lines
- note values and rests
- time signatures
- articulations
- dynamics
- tempos

#### Level II-Tempo II

(2 hours) Pre-requisite: Tempo I Crash Course or basic musical knowledge of topics reviewed in Tempo I

Delve deeper into the amazing world of music: sharps and flats, and how to determine the tonality of a piece of music. We'll journey through the different forms of major and minor keys. This challenging workshop covers material to enable you to assist and guide your child through the first two years of piano study.

- brief review of the basics
- flats/sharps/naturals
- whole and half steps
- keys/key signatures
- scales (major and minor)
