Crash Course for Adults: *Help!* My Child is Taking Piano Lessons

Let's Grow Music's goal is to foster a positive learning adventure for your child. However, what happens when your budding musician begins taking piano lessons and starts asking you questions? When you start feeling overwhelmed? Flustered? Embarrassed? Guilty? We have the answer for you. This 8-week progressive course will provide you with the basics. Learn note naming and values, time signatures, rhythms/meters, key signatures, tempos markings, intervals, music terminology and basic keyboard

skills and much more. *After completion of the course, you should be able to assist and guide your child through the first two years of their piano studies.*

Each class is 45 minutes in length and taught by a degreed instructor, specializing in music theory. The course follows an 8-week progressive curriculum and can accommodate 10-12 adults per class.

Infants 8 months or younger may accompany parent to class.
